

# What's to Glow About? By Dr. William Carter

Since 1999 Dr. Carter has been extensively involved in all office-based things having to do with appearance optimization. He has performed over 35,000 Botox treatments and thousands of laser and filler procedures. He maintains active practices in Lancaster, Dauphin, and York counties.

This edition of *Fine Living Lancaster* brings us a sort of “mixed” Glow. In other words, this is a good news/bad news situation. Understand that I am ecstatic to once again be featured as the Glow writer after a four-year hiatus. But the sad part is that my dear friend Dr. Lisa Learn is vacating her position as author because of her upcoming relocation to Ft. Lauderdale, Florida. Over the years she has been one of my favorite plastic surgeons to refer patients to who required operating room treatment. Dr. Learn, please know that you will be greatly missed both as a nearby friend and as a treasured expert practitioner. Best wishes in your new endeavor!

There have been a number of changes both for my work and me in these past four years. Yes, I still am happily complemented by my loyal and talented aesthetician Gail Trout. She continues to delight our clients with professional peels, microdermabrasion, and an ever-expanding array of topical skin care treatments. Her compassion, attention to detail, and expansive knowledge base, together with an extremely user-friendly pricing structure, make her treatments the best values in the county!

Also now at Medical Cosmetics in Lancaster we have new

front office and assistant personnel. In addition to Patty Schmidt, we now have the services of Sonya Pinto and Kristen Graves. Welcome ladies, your smiling faces and professionalism are most appreciated!

Speaking of Medical Cosmetics, a little more than a year ago we moved to a new and easier to find location. We are now directly across the street from AAA on Estelle Drive, which is the road that intersects with Centerville Road at Friendly's. If you haven't had a chance to visit us at the new location yet, stop by and be pampered. Directions and more about the office and the services we provide can be found on our website: [www.medcoslanc.com](http://www.medcoslanc.com) or call us at (717) 735-3900.

My professional life is now 95% outpatient aesthetic procedures. At this time I split my workweek between three locations. Mondays and Wednesdays I am always in Lancaster. Tuesdays, Thursdays, and Fridays I could be in Hershey, York or Lancaster. In Hershey I work with Dr. David Amato at All About Faces ([www.allaboutfaces.biz](http://www.allaboutfaces.biz), (717) 260-3711). In York I work for Lebo Skin Care Center ([www.leboskincare.com](http://www.leboskincare.com), (717) 747-9950).

This diversification has enabled me to provide a larger array of needed services to more patients while minimizing personal capital outlay. In upcoming issues I will expand on the exciting and newly available treatments and techniques that are helping us to forestall the appearance of the passage of time on our faces and bodies. It's great to be writing the Glow part of *FLL* again and I am so happy to be back! 🐝
